PROFESSIONAL EXPERIENCE

North American Software Associates (NASA)

Sauk Centre, Minnesota

Software Developer

Feb 2023 – Present

- Develop and enhance features for a web-based insurance management application, including an authenticated public API for vendor access to agency data.
- Design and maintain server-side functionality using C#.NET and client-side features with React.js.
- Actively participate in daily stand-ups and sprint planning meetings to collaborate on product improvements and align team goals.
- Consistently deliver high-quality, on-time story work to support program development and ensure sprint success.

Blattner Company

Avon, Minnesota

IT Application Developer Intern

Aug 2022 – Dec 2022

- Built, updated, and debugged application features across multiple platforms to meet sprint requirements and deliver functional enhancements.
- Collaborated with an Agile team by participating in daily scrum meetings and contributing to continuous integration processes.
- Utilized Azure DevOps to manage work items, track progress, and document completed tasks to achieve team objectives.

Sand Companies, inc.

Hybrid/Waite Park, Minnesota

Accounts Payable Specialist

Feb 2021 – Oct 2021

- Performed accurate and efficient data entry of over 80 invoices daily to be paid in a timely manner.
- Evaluated missing information that was needed, and promptly contacted vendors for needed information.
- Engaged with other team members to discuss issues found or updates that need to be done on specific accounts.
